**1983**

**SCHOOL ART  
EXHIBITION  
GOVETT-BREWSTER  
ART GALLERY**

**21 September — 18 October**

INTRODUCTION

It is encouraging to see the increased interest from schools in this years schools art exhibition, up from fifteen in 1982 to twenty five. It is especially interesting to note the wide range of school groups and the fact that class groups in subjects other than art are also represented.

The range of mediums, the variety of dimensions, the scale of work and the use of colour, linked to the science fiction theme, will excite and intrigue every Gallery visitor.

We sincerely thank all schools who have been involved in the exhibition and look forward to an even more exciting event in 1984 - the date itself suggests the theme.
